

The Steelex Network

The Steelex Network was formed in the United Kingdom in 2006 to service the structural steel and pre-engineered building industry in the Middle East and Asia.

We are a UK based specialist international engineering company with over 15 years experience in the manufacture of blasting and painting systems and supplying equipment to steel fabricators and pre-engineered building companies in this region.

Were possible we will manufacture all or some of the machine in the local market to reduce costs and create local opportunity.

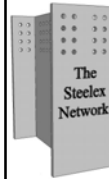

We can offer a tailor made solution to suit your exact requirements and at fair price that's supported in the region.

Pipe Blasting Systems

www.steelexnetwork.com

Manufacturers of shot blasting and painting systems, material handling equipment, suppliers of new and used steel fabrication equipment, steel abrasives, dust and fume extraction systems.

Consultants to the steel fabrication industry.

Steelex Central Asia Ltd.

Steelex Central Asia Ltd. is based in the United Kingdom and manufactures shot blasting and painting systems and supplies new and used steel fabrication equipment to the Middle East and Asia.

As part of the worldwide **Steelex International Network** we offer a unique range of products for structural steel fabricators and pre-engineered building manufacturers. Staffed by experienced Engineers **Steelex Central Asia Ltd.** ensures that

Automatic Shot Blasting Systems

we offer the correct solution for your needs and then assists with installation, commissioning and training so that you get the most from your investment. With all products offered we supply the complete package of design, manufacture, logistics, spare parts and technical support.

We can supply a complete factory, a single machine or tooling and consumables, all at fair price with full after sales support.

Product Summary

- ◆ **Shot Blasting Machines** - New and Used Automatic Shot Blasting Machines and Manual Blast Rooms
- ◆ **Automatic Spray Painting Machines** - for plates and sections.
- ◆ **New Steel Fabrication Machinery**
 - New CNC **Beam Drill Lines.**
 - New CNC **Plate Burning and Drilling Machines**
 - New CNC **Beam Punch Lines.**
 - New CNC **Anglelines.**
 - New CNC **Shape Cutting Tables.**
 - New CNC **Plate Punch.**
 - New CNC **Detail / Flange Lines**
- ◆ **Used Steel Fabrication Machinery**
- ◆ **Beam Welding Lines**
- ◆ **Steel Abrasives** - Premium Steel Abrasive for surface preparation.
- ◆ **Material Handling Equipment** - Systems for all types of factories, conveyors, cross transfers, bucket elevators.
- ◆ **Paint Fume Extraction** - Dry and Wet Filter Systems..
- ◆ **Fusion Bonded Epoxy Plants** - Coating plants for steel pipe, steel section and re-bar.
- ◆ **Portable Punching** - Hydraulic Portable Punching Machines
- ◆ **Rotabroach™** Magnetic Drills.

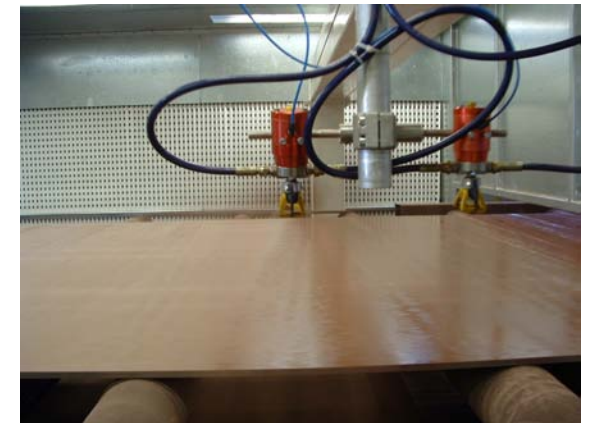

12 Wheel Shot Blasting Machine for 2m high x 0.8m wide Product

Consultancy Services

With its many years of experience in industrial engineering **Steelex Central Asia Ltd.** offers consultancy services for steel fabricators to help reduce the man hours per tonne.

Our expert team from the **Steelex International Network** can assist you with the design of your factory, material handling, welding processes, specification of Manual and CNC machinery and surface preparation and coating systems.

The **Steelex Central Asia Ltd.** team provides the most competitive solutions to the Steel Fabricator in this region based on many years of hands on experience.
